## Royale Play Range

The most wonderful paints give interiors spectacular style. Berger has developed a series of products designed to add high fashion to walls, they change from plain to fantastic. Royale Play Range adds a bling to luxury. Royale Play can deliver many sumptuous and interesting effects. These paints are so versatile they add completely individual style to any interior.

royale *Glitter*

## Royale Glitter Metallic Finish Emulsion

Royale Glitter Metallic Finish is the most wonderful decorative paint effect; it gives interior walls a rich, pearly texture that's the height of luxury.

Glitter is a wonderful way to add colour to a room because of its iridescent quality. As light hits the pearly shimmer the colour appears subtle, elegantly veiled by the silvery lustre. Royale Glitter is water-based and family safe low VOC.

royale *Play*Royale Play Glaze

The rich and elegant textured look can be created easily using Royale Play Glaze and an effects tool. Walls become distinctive in patterns such as crinkle, dapple, weaving, canvas, spatula, colour wash, ragging, sponging, combing and brushing. Glaze and the tool work easily together so the pattern emerges without effort. The soft sheen gives an elegant finish.

Royale Play Metallic Glaze

Textured painted effects are a highly fashionable look, add the lustrous Royale Play Metallic Glaze finish and a wonderful opulence emerges. From the subtlety of patterns like colour wash, weaving, canvas, dapple and brushing to the more textured effects like ragging, spatula, combing, sponging and crinkle, the finish will be unique. Metallic Glaze is water based, odourless, non toxic and fast drying with a 15 to 20 minute easy application time. Metallic Glaze is low VOC and completely safe for kids and family.

### Royale Play Textiles

Fashion moves into decorating easily with the six trendsetting effects available in the Textiles collection. Denim, Jute, Leather,

Crushed Silk, Yarn and Kora Grass are all available in many designer shades. Leather-like walls look expensive, Crushed Silk looks luxurious and Denim

is loved by all for its casual spirit. Royale Play Textiles is a low VOC water-based finish, safe for the family and kids.

royale *Play*

### Royale Play Italian Stucco

The gently marbled effect of Italian Stucco gives walls a subtle effect that is reminiscent of the palazzos of Florence. The colours have been hand-picked to reflect today's interior design trends. Being water-based makes it easy to apply, low VOC and safe for the family.

royale *Play*Royale Play Dune

An unique and lovely effect, Dune adds a subtle metallic lustre to walls. This architectural trowel-on coating will add the right amount of drama to your living space. The choice of three elegant effects, all share the same underlying elegance and sheer, light effect emulating the drift of desert sands, the fine texture balanced with iridescence and delicious colours is a decorating breakthrough. Water-based and low VOC makes Royale Play Dune a family friendly finish.

Royale Play Safari

Distinctive texture, interesting pattern and an amazing palette of fashion colours, Safari is a powerful decorating tool. The exotic patterns can be reminiscent of islands dotted in the ocean, the hide of a rare African beast or a tribal textile. Safari has the power to make a room very interesting and being low VOC makes this finish safe for the family.

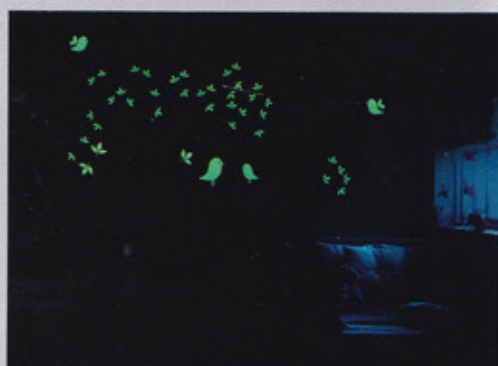

## Kids & Teens World : Glow Themes

Don't forget the children's rooms; Berger's Kids & Teens World stencils will brighten their rooms day and night. In the daylight they are colourful, fun themes, at night they are mesmerising as they glow in the dark. There are many designs available from dinosaurs to mermaids, cowboys to pop concerts, suitable for children of all ages. The themes are available not only for walls but also there are many ceiling art themes to choose from.

PREMIUM INTERIOR

**BERGER**  
PAINTS

Berger's Royale Premium Interior offers the most advanced way to bring colour and style into life. Created with Luminotech™ technology, Royale Premium Interior is hard wearing, fast drying, its superb coverage means you require less effort and paint to achieve that beautiful result and has discernibly richer, truer colours. Royale has built-in stain resistance and is washable, so walls stay cleaner and repaints are required less frequently.

Environmentally aware Royale is low VOC; meaning it emits no offensive fumes or odours, that allows you to move back in virtually straight after painting, perfect for commercial projects and safe for the family and kids.

royale  
Luminotech™

WASHABLE

LOW ODOUR

ENVIRONMENT FRIENDLY

**working with colour :** Paint colour is an individual taste; select shades that appeal to you and provide a wonderful backdrop for your furniture and furnishings. Berger Royale offers a beautiful collection of colours, here are top tips on how to use them.

## modern living: white on white

The key to achieving an airy, light, minimal look is to stick to one clean white on all painted surfaces: on the walls, ceiling and trim. This will create a visual harmony that works with all decorating styles. Berger White Delight is a wonderful crisp, bright white. White furnishings are the icing on the cake.

WHITE DELIGHT 8430

## TIPS : USING WHITE

1. Use the same white on the walls, trim and ceiling for a modern, streamlined look.
2. Cool whites give an illusion of space, warm whites give a softer feel to a room.
3. Add colour and texture with rugs, cushions and artworks.
5. White walls instantly brighten up a room.
6. To choose the right white, put the chips side by side and it will be easy to spot which are cleaner, creamier or have a darker tint.

## wow factor:

A dash of bright colour will add a contemporary edge. White will go with any other shade at all. Berger Morning Glory on all painted surfaces provides visual harmony, Berger Orange Tango on a feature area shows how one colour can have huge impact.

EGGSHELL L149

ORANGETANGO X113

**designer cool:** Whites are tinted to take on their own colour personality; there are many shades of white from clean, sharp snowy white to off whites that could actually be called beige and add colour to a room. Berger Icy Peak is a perfect cool, clean white.

PIPE DREAM L154

TITANIC GREY 8305

**add some colour:** A feature wall is a powerful way to add a favourite colour to a room, create a focus that draws the eye and deliver a polished, decorated look. The before and after shows how Berger Titanic Grey, a mid-grey can transform a white space. The feature wall can be easily and quickly repainted for a change of style.

## one hall : two looks

look one: Berger paint is available in the most gorgeous colours in the world. Vibrant shades with similar depth in adjoining spaces creates a spectacular style.

look two: For a lesser colour statement, calm and gentle neutrals can be painted on most of the walls and a distant room painted in a watermelon shade looks magical and appears to glow with warmth.

**depth of shade:** The starting point when choosing paint colour is to decide on the depth suits you. The palest shades are light and airy. Mid shades really show up colour personality and the deeps are really colours with muscle and provide strong, decorative backdrop to furnishings.

## TIPS : USING COLOUR

1. Whites and pale shades are more restful than bright colours.
2. Deep, rich paint colours can actually make a small space look more powerful.
3. Neutrals are very easy to live with and are very elegant.
4. A variety of shades of one colour used in different areas creates a harmonious colour scheme.
5. Paint feature walls in deep colours so they deliver visual impact.

**design tip :** A beautiful colour on any surface can be an inspiration for decorating, even those much loved pink shoes. Take inspiration from clothes fashion, those fashion designers know how to get colour right, as do the textile designers who created the fabrics on favourite furnishings.

**bright or neutral:** Feature walls have become hugely popular because they are an easy way to take a room from 'nice' to 'terrific'. On large walls in living areas, neutrals are an excellent choice. Neutrals are available in big greys, like the charcoal or the wonderful, complex neutral green. Both work wonderfully well and integrate the dark furniture visually into the room.

WASHABLE

LOW ODOUR

ENVIRONMENT FRIENDLY

Officially  
TESTED

Berger's' Royale Premium Interior brings you the latest in paint technology. To reinforce this Berger has had Royale vigorously tested both for it's hard wearing, washable properties and also for it's environmentally safe, family friendly, low VOC.

### MPI, CANADA - Performance, Environment Friendly & VOC Tests

MPI, CANADA, one of the ultimate testing institutes for paint worldwide, has thoroughly tested the Royale Premium Interior range. The stringent MPI testing confirms Royale Premium Interior complies to Green Performance Standards GPS-1 & GPS-2, and that they also have the best performance for their category.

**MPI CANADA**

**Certified by MPI, CANADA**  
**Performance, Environment Friendly & VOC Tests:**

**Royale Matt Emulsion: Tested and complies to MPI 53 & MPI 143**

PARAMETER	RATING	INFERENCE
