STENCILS

Use only genuine Berger Paints Stencils which have the Berger Paints Wallfashion stickers on them.
These stencils are designed to be used multiple times, if they are maintained well.

a. Ensure that the stencils are cleaned thoroughly with a wet cloth after each use.
b. Always store them with a paper placed in between stencils.
c. Do not use stencils whose edges have got damaged as you will not get sharp lines on the design.

PRODUCTS

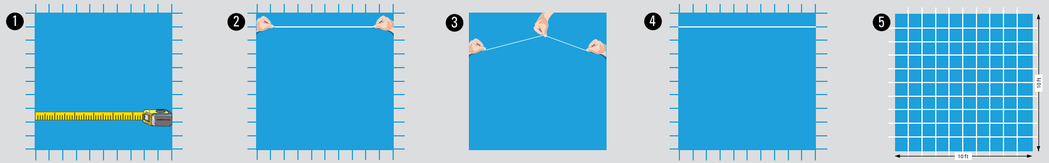
For background colour & stencil colour, use only Berger Paints Royale Silk Emulsion or Berger Paints Royale Matt Emulsion. While applying the background colour, refer to the standard painting application guidelines as mentioned on the product.

While applying the stencil colour, DO NOT ADD ANY WATER to the paint. This is critical to ensure a good finish for the design.

CREATING THE THEME

1. Mark out the position of the stencil on the wall using the grid reference.
2. Apply masking tape on all four sides of the stencil, ensure it is perfectly flat and stuck to the wall.
3. Using a regular 2" sponge roller apply the paint using strokes only in one direction – bottom to top or left to right.
4. In case there is some leakage of paint outside the stencil, remove the excess paint immediately using a wet cloth.
5. Remove the stencil sheet before the paint has dried completely.
6. If required, touch up the edges of the design using a fine brush.

MAKING THE GRID



Using a measuring tape, mark out 1 ft vertically & horizontally on the wall at both ends (left, right & top, bottom).

Stretch a string coated with chalk powder across the wall joining the previously marked out areas & get a 1ft by 1ft grid on the wall.
