

DESIGNER FINISH PAINTS

More than just paint

What do you do when you want a textured finish for your walls but you don't want the hassle of applying wallpaper? Berger Paints has just the thing, with its range of special effects paints.

ROYALE PLAY TEXTILE

The fashionista in you will love this. Berger's Royale Play Textile is inspired by fashion and fabrics and helps bring these elements into home decor. It mimics exquisite fabrics that draped everything from monarchy to fashion renegades. The Crushed Silk paint lends your room an irimitable grandeur, while the modern Denim paint would make quite a statement on any wall. There is also Jute, a versatile effect that looks beautiful in both modern and traditional spaces; Yarn, which is fun and whimsical; and Kora Grass, which creates an effect of tranquility. And of course, nothing says class, luxury and elegance better than a timeless Leather finish.

ROYALE PLAY SAFARI

The dew-kissed leaves of the acacia. The evasive, ever slipping sands of the desert. The reassuring roughness of the eucalyptus bark. The oddy reddish back of the salamander. The undulating hump on a camel's back. These sound like memories

of an African Safari or some Saharan dune bashing, but in truth this is the Berger Paints Royale Play Safari experience. With textures like Frost, Sleek, Ocean Wave and Rainstorm, they will give your living spaces an effect never seen on walls before. Bring a touch of Africa right into your living room, your bedroom, or perhaps even your study.

KIDS & TEENS WORLD

Kids are never boring, so why should their rooms be? Berger Paints' Kids World themes are designed for boys and girls. From the

Wild West to Jurassic Park, deep sea fantasy to bedtime stories, every theme creates

an exciting new world for your child. Even when the lights go off, the Glow in the Dark paints used in the themes keep your little ones mesmerised. Teens World is all about making a fashionable statement on the walls. They're bold, rebellious and loud, just like your teenagers.

WHERE CAN I GET IT?

Berger Paints has just launched these exciting designer finish paints on the 27th of April. You can find them easily at any Colour World

corner in Bahrain. This is not a do-it-yourself project; it requires skilled technicians and a few special tools to create these beautiful effects, which your local Berger Paints dealer can help you with. Once on your wall, you can enjoy the designs for years as they have no special care requirements. **Art**
